JUN 20/18 BCIT Trades Discovery Program ~ Information Session

If you are interested in a Career in the Trades, but unsure of your focus area of study, consider the Trades Discovery program. This program is designed to allow participants to sample the available trades and technical training at BCIT campuses. Students gain hands-on experience in approximately 15 different trades disciplines in a BCIT Trades Discovery Program. Some examples of activities are: lay out and fabrication, general piping, framing, welding, wiring and working on mechanical systems in automobiles, aircraft, and heavy equipment.

Students will be trained and certified in the following:

- HILTI Powder Actuated Tool
- Lift Truck Operator (forklift training)
- WCB Occupational First Aid Level One
- Workplace Hazardous Material Information System (WHMIS)

Students will explore a variety of programs from the following sectors:

- Construction
- Mechanical
- Transportation
- Manufacturing

To register for an information session, visit: <https://www.bcit.ca/study/programs/1180acert>

NEW...BCIT video series: Inside BCIT

There's so much going on every day at BCIT. BCIT has five campuses, over 200 programs, and 2400 employees. In this new video series, **Inside BCIT**, you have the opportunity to learn and see more. Each month, BCIT President Kathy Kinloch, who hosts the series, takes viewers behind the scenes for an inside look at the programs and campuses. Check out the first three episodes.

- **BCIT Automotive Service Technician program**
- **BCIT Airport Operations program**
- **BCIT Biomedical Engineering Technology**

To view the first three episodes, visit: <https://commons.bcit.ca/news/2018/05/introducing-a-new-bcit-video-series-inside-bcit/>

SFU's NEW Sustainable Energy Engineering (SEE) Program

...has received Ministry approval to begin classes in Fall 2019. Applications open in Fall 2018! This program will be the first of its kind in Western Canada, providing students with an interdisciplinary learning environment that will

prepare them to become global leaders in clean technology. Students will have access to brand new facilities through a state-of-the-art building that is currently under construction at SFU's Surrey campus.

Application Details

Students who are planning to start their SFU studies in Fall 2019 can apply directly to SEE. Current post-secondary students or students planning to begin their post-secondary studies in 2018, will have the option of transferring into the second year of SEE in Fall 2019. More details to follow. <http://www.sfu.ca/fas/see/>

UBC Course Registration

Students who have accepted their offer of admission to UBC will receive an email in the coming days that specifies their course registration date and time for the upcoming Winter Session (September 2018 to April 2019). Students can also access this information in their Student Service Centre account. <https://ssc.adm.ubc.ca/sscportal/>
